Art Series Microcement

MOKAY® Microcement is a premium decorative coating composed of inorganic products, additives, and mineral pigments. This innovative product, primarily bonded by cement, encapsulates the simplicity and elegance of modern architectural aesthetics. Increasingly adopted by architects worldwide, this vintage-inspired technique is celebrated for its noble simplicity.

With its primitive and pure colors, MOKAY® Microcement embodies softness, hardness, warmth, and aloofness. By infusing its simplicity into spatial design, one can discern that beauty can be both luxurious and elegant, as well as understated and modest.

Architects are increasingly drawn to its noble simplicity, which appears unassuming yet yields artistic effects that rival grandeur. This versatile surfacing material seamlessly integrates into any space. Its application extends to various surfaces like walls, floors, ceilings, and countertops, delivering a unified aesthetic.

Unique Features

Excellent Flexibility

Our product boasts impressive flexibility, greatly reducing the risk of cracking.

Superior Adhesive Strength

Enjoy outstanding adhesion as our coating can be directly applied to a wide range of substrate surfaces.

High Compressive Strength

Experience unmatched durability with superior compressive strength, surpassing that of conventional flooring materials.

Fire Resistance Rating

Certified as non combustible material, ensuring safety and suitability for various environments.

Outstanding Waterproofing

Achieve unparalleled protection against water damage, enhancing the longevity of your surfaces.

Exceptional Stain Resistance

Our coating repels stains effectively, maintaining a pristine appearance even in high-traffic areas.

Extensive Color Options

Choose from a diverse range of colors featuring mineral pigments for eco-friendly coloring options.

Versatile Applications

Explore endless possibilities as our coating is suitable for floors, walls, ceilings, furniture, and various crafts.
